

Adicionar a chave de integração ao Salesforce

1 Requer: ter uma chave de integração com a API de Dados do Youtube

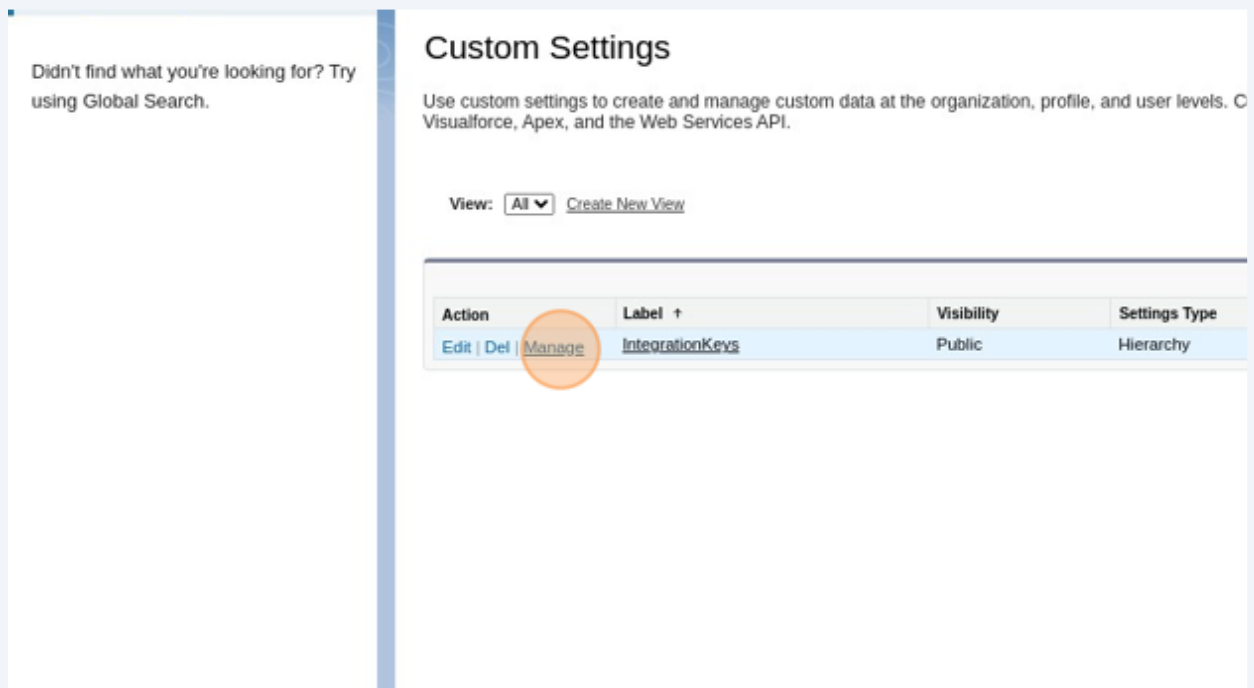

2 A partir do Setup, pesquise por "Custom Settings" ou "Configurações Personalizadas"

3 Click "Custom Settings"

4 Click "Manage" ou "Gerenciar"

5 Click "New" ou "Criar"

Custom Settings

IntegrationKeys

Setting is a list, click **New** to add a new set of data. For example, if your application had a setting for country codes, each set might include the country's name and a list of country codes. If your application has a setting that is a hierarchy, you can add data for the user, profile, or organization level. For example, you may want different values to display depending on whether the user is a guest or logged in.

Organization Level Value
